

Paper Playground Shape Sheets

The world is made of shapes. All children need tactile experiences with different shapes as they learn to recognize the different attributes of shapes, supporting shape recognition and creation. Give your students the opportunity to explore shapes in everyday life using the Imagination Playground Blocks.

Imagination Playground Blocks include the foundational shapes:

Square, Circle, Triangle, and Cylinder.

Use the Imagination Playground Paper Playground Shape Sheets as provocations for your children's early explorations of shapes. Either print the Shape Sheets as visual references to post on the classroom walls or laminate them for students to use as reference guides during their play in the classroom.

We Transform Children's Minds, Bodies, and Spirits through Play!
